25X1

FIRST PART OF CONVERSATION BETWEEN

NSA

25X1

Friday, 15 April 1960

You should go out to SAC and tell them what the status is on System III. Would appreciate it if you would confirm to the people (names to be given by Art) the same story, i.e., I did say to the ARC that System III was malfunctioned. But in order to alleviate any doubt, your Agency should inform the people officially.

We might make this a regular procedure. We have to have a negative report so that they know what is going on.

On the DMR. You have had a DMR anyway, haven't you?

Yes.

It seems to me that the DMR comes in from ED (that's where I left the phone -- sorry -- art)
